MEDIA RELEASE

June 20, 2016

Fair Trade Network election scorecard

Greens and NXT 5 Stars, Labor 4 Stars, Liberals last

The Australian Fair Trade and Investment Network of [60 community organisations](#) has analysed policy documents, public statements and past records to compare the trade policies of the major parties on key issues, summarised below.

Policy	Liberal	Labor	Greens	Xenophon
Opposes foreign investor rights to sue Governments (ISDS)	No	Yes	Yes	Yes
Opposes stronger medicine and copyright monopolies	No	Yes	Yes	Yes
Supports enforceable labour rights	No	Yes	Yes	Yes
Supports enforceable environmental protections	No	Yes	Yes	Yes
Supports labour market testing	No	Yes	Yes	Yes
Supports release of draft texts and final texts before signing	No	Yes	Yes	Yes
Has committed to vote against the TPP's implementing legislation	No	Not decided	Yes	Yes

Dr Patricia Ranald, AFTINET Convenor, said today that the Greens and the Nick Xenophon Team score highest with five stars.

She said that ALP policy scored well on most key issues, but loses a star because it has not committed to voting against the TPP's implementing legislation, despite the fact that the TPP contradicts its policy on those key issues.

The Coalition scores lowest with negative answers on all key issues.

"We are publicizing our [scorecard](#) through our network of 60 community organisations," said Dr Ranald.
